With 2 years + of experience in front-end development, I specialize in crafting high-quality web applications using Next.js and React.js. My focus is on optimizing performance and delivering user-friendly solutions that enhance both functionality and satisfaction. I bring a detail-oriented approach to development, ensuring efficiency and scalability in every project I work on.

Work History

Senior Front End Developer

Trooople Group, Los Angeles, CA

November 2021 - August 2024

- Led front-end development for multiple projects, including Xgen Billing, a comprehensive web application for billing management
- Worked on Deeligence (<https://www.deeligence.com>), optimizing web performance and ensuring a seamless user experience
- Delivered pixel-perfect, highly responsive web applications using modern technologies such as React.js, Next.js, JavaScript, and HTML/CSS
- Collaborated with cross-functional teams to integrate user feedback, ensuring continuous improvement and high-quality code
- Focused on performance optimization, code scalability, and best practices in front-end development.

Full Stack Developer

Extrabit Software Solutions Training, Indore, Madhya Pradesh

March 2021 - October 2021

- Worked on live projects, including TimeCamp, a time management and productivity tool
- Contributed to the development and enhancement of a mobile application, focusing on UI/UX and functionality improvements
- Gained hands-on experience in web and mobile application development using technologies like [mention relevant technologies you worked with, e.g., React, Node.js, etc.]
- Collaborated with senior developers to solve technical challenges and deliver high-quality code.

Full Stack Developer

Universal Informatics, Indore, Madhya Pradesh

September 2020 - February 2021

- Completed Full Stack Developer coaching program where I gained comprehensive knowledge in HTML, CSS, JavaScript, React, Node.js, and database technologies
- Working on various projects under the guidance of industry expert instructors, I developed practical skills and experience
- This course and project work equipped me with all the technical and professional capabilities needed to become a successful Full Stack Developer.

Education

Bachelor of Science in Computer Science July 2023
Government Rajeev Gandhi PG College at Mandsaur, India

Certifications

- Full Stack Developer: Focused on server-side rendering and static generation techniques, provided by Coursera.
- React and Modern JavaScript: Covers hooks, contexts, and advanced components, offered by Udemy.

Passions

- Web Application Development: Passionate about creating efficient and scalable web applications that enhance user experience.
- Mentoring Emerging Developers: I find great satisfaction in guiding new developers through the complexities of modern web development.
