www.linkedin.com/in/jaideep-patidar-596793251 📍 Indore Madhya Pradesh

SUMMARY

With 2 years + of experience in front-end development, I specialize in crafting high-quality web applications using Next.js and React.js. My focus is on optimizing performance and delivering user-friendly solutions that enhance both functionality and satisfaction. I bring a detail-oriented approach to development, ensuring efficiency and scalability in every project I work on.

EXPERIENCE

Senior Front End Developer

11/2021 - Present

Troopole Group

Los Angeles, CA

- Led front-end development for multiple projects, including **Xgen Billing**, a comprehensive web application for billing management.
- Worked on **Deeligence** (<https://www.deeligence.com>), optimizing web performance and ensuring a seamless user experience
- Delivered pixel-perfect, highly responsive web applications using modern technologies such as **React.js**, **Next.js**, **JavaScript**, and **HTML/CSS**.
- Collaborated with cross-functional teams to integrate user feedback, ensuring continuous improvement and high-quality code.
- Focused on **performance optimization**, **code scalability**, and **best practices** in front-end development.
- Highlight your accomplishments, using numbers if possible.

Full Stack Developer

03/2021 - 10/2021

Extrabit Software Solutions Training

Indore Madhya Pradesh

- Worked on live projects, including **TimeCamp**, a time management and productivity tool
- Contributed to the development and enhancement of a **mobile application**, focusing on UI/UX and functionality improvements
- Gained hands-on experience in web and mobile application development using technologies like [mention relevant technologies you worked with, e.g., React, Node.js, etc.].
- Collaborated with senior developers to solve technical challenges and deliver high-quality code.
- Highlight your accomplishments, using numbers if possible.

Universal Informatics

09/2020 - 02/2021

Full Stack Developer Coaching

Indore Madhya Pradesh

- AT universal informatics, I Completed Full Stack Developer coaching program where I gained comprehensive knowledge in HTML, CSS, JavaScript, React, Node.js, and database technologies
- Working on various projects under the guidance of industry expert instructors, I developed practical skills and experience
- This course and project work equipped me with all the technical and professional capabilities needed to become a successful Full Stack Developer.

KEY ACHIEVEMENTS

🔧 Reduced Load Times

Spearheaded the **redesign of a major web application**, reducing load times by **30%**, which significantly enhanced **customer satisfaction** and improved overall user experience.
